

Codebook

How the Pro-Beijing Media Influences Voters: Evidence from a Randomized Field Experiment

Data Creator: Jay C. Kao

This codebook accompanies the dataset for "How the Pro-Beijing Media Influences Voters," a randomized controlled trial conducted during Taiwan's 2020 general election. This study preregistered a two-wave panel design with a baseline survey administered before the intervention and an endline survey administered afterward and post-election. Participants were recruited through an online panel administered by Qualtrics and its local partners in Taiwan.

This document describes the variables, values, and coding logic for the analysis dataset. The following variables allow for the reproduction of all tables and figures contained in the manuscript.

Variable	Description / Question	Values / Codes
gid	Unique ID <i>System generated unique identifier for each participant</i>	<i>String</i>
wave2	Study Completer <i>Participants completing both survey waves</i>	0 = No 1 = Yes
age	Age <i>What is your age?</i>	[20, 84]
female	Gender <i>What is your gender?</i>	0 = Male 1 = Female
special_municipality	Urban Residence <i>Location==Taipei, Taoyuan, New Taipei, Taichung, Tainan, or Kaohsiung</i>	0 = No 1 = Yes
edu	Education <i>What is your highest level of education?</i>	0 = No school 1 = Primary school 2 = Middle school 3 = High school 4 = Professional college 5 = University 6 = Graduate program and above
full_time	Employment Status <i>Current full-time employment?</i>	0 = Part-time/Other 1 = Full-time
married	Marital Status <i>Are you married?</i>	0 = No 1 = Yes

Variable	Description / Question	Values / Codes
income_cat	Income <i>What is your monthly household income?</i>	1 = < 27,000 2 = 27,001–38,000 3 = 38,001–49,000 4 = 49,001–59,000 5 = 59,001–69,000 6 = 69,001–80,000 7 = 80,001–92,000 8 = 92,001–109,000 9 = 109,001–140,000 10 = 140,001–190,000 11 = 190,001–240,000 12 = 240,001–290,000 13 = 290,001–340,000 14 = > 340,000
father_islander	Ethnic Background <i>What is your father's ethnicity?</i>	0 = Other 1 = Minnan Taiwanese
taoism	Religion <i>What is your religious affiliation?</i>	0 = Other 1 = Taoism
partyid	Partisan Support/Leaning <i>Which party do you support or lean on?</i>	1 = KMT 2 = DPP 3 = New Party 4 = PFP 5 = TSP 6 = Green Party 7 = NPP 8 = TPP 9 = Tree Party 10 = None
spectrum	Political Predisposition <i>Which party do you support or lean on?</i>	1 = Pan Blue (partyid = 1, 3, 4) 2 = Nonpartisan (partyid = 8, 9, 10) 3 = Pan Green (partyid = 2, 5, 6, 7)
pan_blue	Pan-Blue/PRC-Friendly Respondent (Ref: spectrum ==1)	0 = No 1 = Yes
independent	Nonpartisan Respondent (Ref: spectrum ==2)	0 = No 1 = Yes
pan_green	Pan-Green/PRC-Skeptical Respondent (Ref: spectrum ==3)	0 = No 1 = Yes

Variable	Description / Question	Values / Codes
president_2016	Vote Choice in 2016 <i>Which party's candidate did you vote in the 2016 election?</i>	1 = KMT 2 = DPP 3 = PFP 4 = Didn't Vote 5 = Below 20 6 = Don't remember
president_2016_voted	Turnout in 2016 <i>Did you vote in the 2016 general election?</i>	0 = No 1 = Yes (president_2016<=3)
president_2012	Vote Choice in 2012 <i>Which party's candidate did you vote in the 2012 election?</i>	1 = KMT 2 = DPP 3 = PFP 4 = Didn't Vote 5 = Below 20 6 = Don't remember
president_2012_voted	Turnout in 2012 <i>Did you vote in the 2012 general election?</i>	0 = No 1 = Yes (president_2012<=3)
nwpaper_pref_apple	Newspaper Preference <i>which online newspapers do you prefer?</i>	0 = Other 1 = Apple Daily
sanlih_show	TV Program Preference <i>Rank your preference for watching SET's New Taiwan Refueling (relative to CTi's Deep Throat News, One Piece, and Girl's Power)</i>	1 = Least-Preferred 2 = Third-Preferred 3 = Second-Preferred 4 = Most-Preferred
strait_relation	Cross-Strait Position <i>Which position on cross-strait relations do you lean toward?</i>	1 = Unify Immediately 2 = Independence Imm. 3 = Status Quo → Unify 4 = Status Quo → Indep. 5 = Status Quo → Decide 6 = Status Quo Indef.
identity	National Identity <i>Do you consider yourself as Taiwanese, Chinese, or Both?</i>	1 = Taiwanese 2 = Chinese 3 = Both
conditions	Treatment Condition <i>Random assignment after baseline for non-CT existing consumers.</i>	1 = Control 2 = Placebo 3 = Treatment 4 = Existing Consumer
control	Control Group Indicator (Ref: conditions ==1 & ≠ 4)	0 = No 1 = Yes
placebo	Placebo Group Indicator (Ref: conditions ==2 & ≠ 4)	0 = No 1 = Yes
treatment	Treatment Group Indicator (Ref: conditions ==3 & ≠ 4)	0 = No 1 = Yes

Continued on next page...

Variable	Description / Question	Values / Codes
china_times	Existing CT Consumer (Nonexperimental Group) Indicator (Ref: conditions ==4)	0 = No 1 = Yes
avg_browsing	Average Daily Browsing Time <i>During 2-week incentivized period.</i>	<i>Continuous (Seconds)</i> Min: 0 Max: 1796.1
full_complier	Treated Complier (Full) (Ref: avg_browsing ≥ 180 seconds)	0 = Noncomplier 1 = Complier
min_complier	Treated Complier (Minimum) (Ref: avg_browsing ≥ 60 seconds)	0 = Noncomplier 1 = Complier
turnout_w1	Turnout Intention (Baseline) <i>Do you plan to vote in the 2020 election?</i>	0 = No/Undecided 1 = Yes
turnout_w2	Actual Turnout (Endline) <i>Did you vote in the 2020 election?</i>	0 = No 1 = Yes
turnout_change	Change in Turnout <i>Note: Calculated as (Endline - Baseline)</i>	[-1,1]
pres_vote_w1	Vote Intention (Baseline) <i>If the presidential election were held today, which candidate would you vote for?</i>	1 = Han 2 = Tsai 3 = Soong 4 = Undecided
pres_vote_w2	Actual Vote (Endline) <i>Which presidential candidate did you vote?</i>	1 = Han 2 = Tsai 3 = Soong 4 = Null Vote
vote_han_w[1,2]	Vote for Han (Ref: pres_vote_w[1,2] ==1)	0 = No 1 = Yes
vote_han_change	Change in Vote for Han <i>Note: Calculated as (Endline - Baseline)</i>	[-1,1]
vote_tsai_w[1,2]	Vote for Tsai (Ref: pres_vote_w[1,2] ==2)	0 = No 1 = Yes
vote_tsai_change	Change in Vote for Tsai <i>Note: Calculated as (Endline - Baseline)</i>	[-1,1]
vote_song_w[1,2]	Vote Intention for Soong (Ref: pres_vote_w[1,2] ==3)	0 = No 1 = Yes
vote_song_change	Change in Vote for Soong <i>Note: Calculated as (Endline - Baseline)</i>	[-1,1]
vote_undecided_w1	Undecided Choice at Baseline (Ref: pres_vote_w1 ==4)	0 = Has a Vote Intention 1 = Undecided
han_thermo_w[1-2]	Favorability toward Han <i>Scale: 1 (Dislike) to 10 (Like)</i>	[1, 10]
tsai_thermo_w[1-2]	Favorability toward Tsai	[1, 10]

Continued on next page...

Variable	Description / Question	Values / Codes
song_thermo_w[1-2]	Favorability toward Soong	[1, 10]
relative_thermo_w[1-2]	Han-Tsai Relative Favorability <i>Note: Calculated as (Han score - Tsai score)</i>	[-9, 9]
relative_thermo_change	Change in Han-Tsai Relative Favorability <i>Note: Calculated as (Endline - Baseline)</i>	[-18, 18]
Components of PRC Index:		
china_thermo_w[1, 2]	1. Favorability toward PRC <i>Scale: 1 (Dislike) – 10 (Like)</i>	[1,10]
ch_econ_inf_w[1, 2]	2. Impact of PRC's Growth <i>How has Mainland China's economic growth impacted Taiwan's economy?</i>	1 = Very Positive 2 = Somewhat Positive 3 = Fairly Negative 4 = Very Negative
ch_threat_w[1,2]	3. PRC's Military Threat <i>How much PRC's military is a threat to Taiwan?</i>	1 = Major 2 = Minor 3 = None
ch_usa_power_w[1, 2]	4. US-China Competition <i>Will China surpass the US as the leading global power within 10 years?</i>	1 = Def. Will 2 = Prob. Will 3 = Prob. Won't 4 = Def. Won't
strait_trade_w[1, 2]	5. Cross-Strait Trade Preference <i>Do you favor expanding or reducing economic ties with Mainland China?</i>	1 = Greatly Reduce 2 = Slightly Reduce 3 = Maintain 4 = Slightly Increase 5 = Greatly Increase
xidada_w[1,2]	6. Trust in Xi's Global Leadership <i>How much do you trust the president of China Xi Jinping to do the right thing in world affairs?</i>	1 = Strongly Distrust 2 = Somewhat Distrust 3 = Somewhat Trust 4 = Strongly Trust
hk_protest_w[1,2]	7. Support for HK Protests <i>How much do you support the ongoing HK protests?</i>	1 = Strongly Oppose 2 = Somewhat Oppose 3 = Neutral 4 = Somewhat Support 5 = Strongly Support
hk_radical_w[1,2]	8. Justification of Radical Tactics <i>How much do you agree that when the HK govt. fails to listen, protesters are justified in using radical tactics</i>	1 = Strongly Disagree 2 = Somewhat Disagree 3 = Neutral 4 = Somewhat Agree 5 = Strongly Agree
prc_index_w[1-2]	INDEX: PRC-related Attitudes <i>Composite mean of the 8 items above</i>	<i>Continuous</i> Min: 1 Max: 5

Continued on next page...

Variable	Description / Question	Values / Codes
prc_index_change	Change in PRC Index Score <i>Note: Calculated as (Endline - Baseline)</i>	<i>Continuous</i> Min: -3 Max: 3.12
interest_campaign_w[1,2]	Political Interest <i>Interested in election campaign so far?</i>	1 = Not at All 2 = Not Very 3 = Moderately 4 = Quite 5 = Very Much
concern_election_outcome_w[1,2]	Political Attentiveness <i>Care who wins this presidential election?</i>	1 = Not at All 2 = A Little 3 = Some 4 = A Good Amount 5 = Very Much
overall_polinews_consumption_w[1,2]	Overall News Diet <i>Average frequency of accessing news via:</i> <input type="checkbox"/> TV News <input type="checkbox"/> Newspapers <input type="checkbox"/> Social Media <input type="checkbox"/> News Portals? <i>Note: Composite mean of the 4 items</i>	1 = Often 2 = Sometimes 3 = Rarely 4 = Never (Range: 1-4)
pnews_days_w[1,2]	Election News Consumption <i>Average daily time spent on election news?</i>	1 = None 2 = < 30 Mins 3 = 31-60 Mins 4 = 1-1.5 Hours 5 = 1.5-2 Hours 6 = > 2 Hours
website_quality	Website Quality <i>How would you rate the quality of news reporting on the website?</i>	1 = Very Bad ... 7 = Very Good
website_strength	Argument Strength in News Reports <i>Are the arguments presented in the news reports strong or weak?</i>	1 = Very Weak ... 7 = Very Strong
positive_emotion	Positive Emotion <i>After reading website news, did you feel</i> <input type="checkbox"/> Enthusiastic? <input type="checkbox"/> Hopeful? <i>Note: Composite mean of the 2 items</i>	1 = Not at all ... 7 = Extremely strong (Range: 1-7)
negative_emotion	Negative Emotion <i>After reading website news, did you feel</i> <input type="checkbox"/> Angry? <input type="checkbox"/> Disgusted? <i>Note: Composite mean of the 2 items</i>	1 = Not at all ... 7 = Extremely strong (Range: 1-7)
